

Job Description: Registered Nurse/LPN

Job Summary

The Registered Nurse/LPN is a professional member of the healthcare staff who provides skilled nursing care to patients in compliance with the Nurse Practice Act and policies and procedures of GRACE Staffing Inc. The Registered Nurse/LPN is responsible for complete nursing care of all assigned patients.

Qualifications

Graduate of an accredited school of nursing and currently licensed in good standing in the state of practice.

Minimum of one year of recent nursing experience.

Active BLS and ACLS certification.

Shows evidence of fulfilling health requirements

Responsibilities

Participate in the planning and coordination of total patient care with the guidance of the RN Supervisor and physician.

Function under the direct supervision of the RN Supervisor.

Follow the nursing care plan and physician orders for each assigned patient.

Observes, evaluates and applies knowledge of nursing skills to the patients assigned.

Work cooperatively with the other health disciplines providing care.

Notify the nursing supervisor immediately of any adverse change in the patient's mental or physical condition.

Assist the patient with the activities of daily living while teaching appropriate self-care techniques. Perform within limits of preparation and experience.

Provide nursing care within the guidelines of the Nurse Practice Act.
